

## Geography - Vocabulary Progression Map

Below are the vocabulary lists for geography. These give an indication of the words that we want children to become familiar with during each key stage. They are not intended as a test list but show the kind of language staff will use and explain in lessons to broaden pupils' history vocabulary and understanding. Children may be exposed to these set words at an earlier time and there may be overlaps, however, where they have been placed in this table relates to when we would expect the children to understand and apply the words themselves independently. It is expected that key vocabulary is built upon and that previous historical language is revisited each year. This vocabulary will be displayed on our working walls at appropriate times during the academic year and promoted through geographical talk in lessons.

| EYFS        | KS1                   | Lower KS2       | Upper KS2               |
|-------------|-----------------------|-----------------|-------------------------|
| above       | Aerial view           | sketch map      | <b>Extreme Earth -B</b> |
| below       | Map Symbol Key        | plan            | natural disaster        |
| around      | Compass               | graph           | Pompeii                 |
| atlases     | North South East West | observe         | tremor                  |
| map         | Position Direction    | measure         | tectonic plates         |
| seasons     | Atlas                 | record          | magma chamber           |
| cold        | Globe                 | present         | fissures                |
| hot         | Planet Earth          | Fieldwork grid- | pyroclastic flow        |
| destination | land                  | reference       | pumice                  |
| Earth       | Continent             | graphs          | epicentre               |
| land        | North America         | human           | aftershock              |
